

The Tower Cabiin at Tilly's Head

Listing URL: <https://www.municipalityofshelburne.ca/map/airbnb/the-tower-cabiin-at-tilly-s-head>

Enjoy the lovely setting of this romantic spot in nature. The tower at Tillys Head is a unique structure built off grid high on a cliff on the South Shore of Nova Scotia, overlooking the Atlantic Ocean. Anyone who is looking for a place to unwind and leave the real world behind for a while will fall in love with this special place. Be aware this is a rustic cabin, not a luxury accommodation.

A 10 min walk through the woods is required to get from the parking lot to the cabin. Dining opportunities as well as grocery stores are 35 to 40 minutes away. The hosts strongly recommend bringing some of your own food. A cooler with ice will be on site ready to store it. Plenty of drinking water, water for dishes and a very basic camp shower is supplied, but there is no running water. There is LIMITED solar power for lights and charging electric devices.
