

Sable River Fire Department

Listing URL: <https://www.municipalityofshelburne.ca/map/fire-departments/sable-river-fire-department>

The Sable River Volunteer Fire Department has been serving the Sable River and surrounding areas for 50 years; two and one half of which I have happily served as fire chief.

Our team is 100% comprised of dedicated volunteers who are available 24/7/365 for any and all emergencies affecting our fire district and our surrounding fire departments by way of mutual aid, if they require help. In 2019 alone we responded to just under 50 calls for service.

In the recent meetings, and survey that was filled out by area residents, you've asked for transparency within the fire department, and this is our number one hope behind this website.

We will be posting regular information as it becomes available, and our world slowly returns to normal.

Our fire department is always looking to recruit new volunteers both as firefighters and in administration. We are also currently going through renovations to bring our fire hall up to a higher standard to better serve the communities which we serve and can always use a helping hand. If you have any interest in becoming a volunteer, please do not hesitate to click on the "recruitment" tab, or just reach out. There is nothing more rewarding than serving your community!

Yours truly,

Todd Sisk, PCP Fire Chief
