

## Roseway Manor

Listing URL: <https://www.municipalityofshelburne.ca/map/seniors/roseway-manor>

Owned and operated by the Municipality of the District of Shelburne and the Towns of Shelburne and Lockport, Roseway Manor is a non-profit nursing home founded in 1976 that offers 66 beds to clients age 64 to 102. Staffing duties range from nursing to nutritional advisor and administrative personnel. The peaceful setting of Roseway is enhanced by beautifully maintained gardens, including one with an enclosed perimeter for Alzheimer patients.

The facility offers recreational opportunities and events providing mental and physical activity, including exercise classes, gardening and bingo. Some of the activities are not your stereotypical senior home fare either: they also have Tai Chi, Wheelchair Zumba and trivia contests on a regular basis. Days are packed with an assortment of fun goings-on.

During the past year, with the support of the CBDC, memorial donations, fundraising and a generous donation from the Roseway Hospital Auxiliary, the nursing home was able to purchase a MFAB safety standard Mini Bus to replace their older style van. This new vehicle seats up to eight residents with additional space for clients who are confined to wheelchairs and it is used frequently for recreational activities located off property.

Roseway Manor also offers Leisure and Support Services which provide an Adult Day Program that benefits seniors and caregivers alike by offering a place that provides activities such as baking, crafts, music and games for seniors throughout the day. The program runs from Monday to Friday, 9:00 a.m. to 3:30 p.m. Meals and snacks are provided during the day and there are even hairdressing and transportation services offered. This provides a great mental break for clients as well as their caregivers.
