Subject: Davie Hartley - I heard back from Natural Resources and Renewables

CAUTION: This email originated from an external sender.

Hi Penny

I heard back from Natural Resources and Renewables. I embedded an image of a piece of land which we talked about. They indicated that leasing is an option for the Shelburne Municipality. You will see on the image an arrow pointing to a small piece of land (100 metres x 100 metres) which we talked about. Would the Shelburne Municipality be interested in leasing the land for a small monument remembering the Black folks who were allocated land in this area. I would pull together a working committee to work on fundraising, monument maintenance and additional leg work/hands on work.

Thank you, Davie
