CAUTION: This email originated from an external sender.

Hi Again Nicole,

Our presentation topic below.

Sandy Point Lighthouse Group is seeking to apprise the Municipality of Shelburne council of the current state of the Municipal Heritage Designated Sandy Point Lighthouse and the Lighthouse Park. Our presentation will include the importance and immediate need of Municipality support in our ongoing efforts in world tourism, community involvement and financial needs.

THank you,

Lana

# The Sandy Point Lighthouse & Community Centre

President Zelka Lipovac  
& Vice President Lana Shupe

July 23rd, 2025

- Thank you for the Municipality of Shelburne's past contributions and for the opportunity to represent the Municipality.
- Our aim is to collaborate with the Municipality and the Economic Development Committee to establish a Critical Tourism Infrastructure.

- The Lighthouse & Community Centre are integral to the Municipality.
- Seasonal employment.
- Portions of fundraised money gets put back into the community.

- The Sandy Point Lighthouse is a critical tourism component in the Municipality of Shelburne.
- The lighthouse is an attraction, bringing tourism to the area.
- Around 20 000 people visit yearly (not including events).
- Tourists visiting the lighthouse will often venture into Shelburne afterwards, therefore spending money in the community.

- We ask that the lighthouse and community centre be included as a line item in your yearly budget.
- If not feasible, please consider making a financial commitment of one third of the total amount required when the lighthouse and community centre are in need of repairs and upgrades.

- Please keep in mind that the Municipality of Shelburne greatly benefits from the lighthouse and community centre.
- The lighthouse should benefit from the Municipality.

**Thank you for your  
time!**
