

---

Dear Chair Person,

I'm writing as a concerned citizen of the municipality.

One question I've had from the very beginning, is WHY amalgamation is on the table? And if it's not known WHY, then my next question is, WHO put you at the table? What problems currently exist, that needs fixing?

Can you guarantee that if amalgamation happens, there will be ZERO tax increase for at least the next 3 years at least?

If amalgamation advances to future stages, will the citizens who is affected, have a chance to vote (plebiscite) ?

Is there a possibility that areas/districts may receive fewer services?

When amalgamation happens, usually that means fewer staff. Will this be the case if amalgamation occurs? Will that savings trickle down to us, the taxpayers?

Another concern that I have, is that IF amalgamation happens, the needs of our municipality may no longer be represented. Will there be a means whereby each district will still have a voice and a say?

Thank you for your time in addressing my concerns.

I am asking for a reply within 7 business days in response to these questions.

Thank you
